[gannonb@town.madison.wi.us](mailto:gannonb@town.madison.wi.us)

The purpose of the class is to help all medical/first responding units provide the best care using the Cardio Cerebral Resuscitation Protocol when responding to patients in Cardiac Arrest. This class will give you a better understanding of why and how to perform this new skill and why it is becoming the standard of care.

Rock and Walworth counties have successfully implemented this protocol with dramatic and impressive results. Save rates based on available data are over 40%!

#### Continuing Education

Continuing Education Certificates for 2.0 hours will be issued for those attending by the Town of Madison Fire Department.

#### Refreshments

Light refreshments provided by the Town of Madison Fire Department
